#### **GROUP INSURANCE COMMISSION**

The Executive Office for Administration and Finance
Commonwealth of Massachusetts

Performance Report Fiscal Year 2013

**Dolores L. Mitchell** 

**Executive Director** 

### A MESSAGE FROM THE EXECUTIVE DIRECTOR

While the GIC's mission, to provide high quality, affordable health and other benefits to state and other public sector enrollees remains essentially unchanged, the means chosen to achieve the mission need constant review to make sure the agency is prepared to meet new challenges. The ever-increasing costs of health care, the significant growth in our membership, and the expanded role of the federal government in determining the basic rules of coverage, have all made the goal more complex and more necessary than ever as the fundamental shifts in the health care marketplace continue.

The transition from a 19<sup>th</sup> century supply driven cottage industry, to a supply and demand driven model, has accelerated. It is now a system where practitioners, purchasers, payers, and increasingly, patients, are dependent on technology and data. The GIC is committed to the use of data to inform its purchasing decisions, monitor performance and provide relevant information to its members.

There is an old adage that says you cannot serve two masters. That adage cannot should not—apply to those who work in the public sector. In fact the GIC serves three masters, and arguably a fourth. We serve the administration that is charged with balancing employee and retiree costs against other public goals. We serve our enrollees whose basic health needs have been entrusted to us to provide, and, at the same time, we serve the taxpayers of the commonwealth who pay the largest share of the costs. A fourth master might reasonably be added. Without the willing participation of payers and providers we could never achieve our goals. The measures we have selected to deal with these disparate concerns are described in the pages that follow, along with the metrics we have chosen to measure our progress.

Dolores L. Mitchell Executive Director

As an organization affiliated with the Executive Office of Administration and Finance (A&F), the Group Insurance Commission's goals reflect and bolster the commitments of A&F to deliver Better Finance, Better Health Care, Better Performance and Better Government.

This report was developed pursuant to Executive Order 540. Governor Patrick's directive to embed strategic planning performance and management across state The government. Group Insurance Commission's FY13 **Performance Report describes** progress achieved against the goals set out in its 2013-2015 Strategic Plan.

Please send feedback regarding this report to: gicpublicinfo@state.ma.us

### ACTIONS UPDATE

#### Incorporate payment reform into the procurement process

With the 2013 procurement completed, the health plans have committed to achieving the goals laid out for them, which are a more rigorous variation of Chapter 224 and the Affordable Care Act. The GIC has set up work groups that meet monthly to support the plans in making this transition.

# Empower consumers to make informed decisions when selecting health care providers

A workgroup selected the term, *Centered Care* and a corresponding logo, to be used in member communications related to the Integrated Risk Bearing Organization initiative. The Centered Care theme has been and continues to be incorporated into the newsletters and websites of the GIC and its health plan partners.

Enhance use of technology to improve efficiency, streamline internal processes and enhance the customer experience

The GIC recently implemented several new system upgrades that will enhance our customer experience. We completed and installed a new correspondence tracking system that enables the GIC to utilize an electronic repository and eliminate paper usage as well as respond to inquiries in a more efficient manner. We also installed a new billing system that combines seven types of bills into one common bill. Now, the enrollee - for example, an employee on leave – receives one bill for all products. This change has cut down on postage and paper usage, and made it easier for the enrollee in that they need only make one payment for all products.

We implemented a new website called myGIC which allows enrollees with GIC coverage to view their benefits online. The new portal displays up-to-date information and provides the enrollee the opportunity to print out a Benefit Statement at any time.

As part of a program with the State Treasurer's office, the GIC acquired a check scanning machine that allows us to scan and deposit all checks at the GIC, eliminating the need for someone to

physically go to the bank each day to make a deposit. The process is now streamlined with one person processing all the checks and a daily report informing the appropriate people in the office that payment has been received.

#### Expand WellMASS employee wellness programs

While onsite programming continues to exceed expectations, participation in the Health Assessment – a self-assessment tool of health status – has not reached the level the GIC hoped to achieve.

#### Improve customer service for enrollees

The GIC is in the process of developing a survey for our members with plans to release it in March 2014.

As health plans and providers are our customers as well, the GIC introduced a new report as part of the Clinical Performance Improvement Initiative. The report better explains a specialist's quality and efficiency scores, provides consolidated information on the tiers to which they have been assigned by each of our six health plans, and identifies the areas in which the provider could improve.

# PERFORMANCE DASHBOARD

| STATUS LEGEND  |  |  |  |  |  |   |  |

### NOTEWORTHY CHANGES, ADDITIONS OR DELETIONS

| GOAL   | CHANGE, ADDITION OR DELETION EXPLANATION  |
|--|---|
| Enhance existing technology to improve efficiency, streamline internal processes and enhance the customer experience | Change: replaced the word <i>existing</i> with <i>use of</i> to reflect that the GIC is using new technology as well as existing technology to achieve this goal. |
| Ensure all GIC regulations are clear, comprehensive and timely   | Although this remains an important goal, there are no metrics to define the GIC's progress. As a result, this goal does not appear on the dashboard.              |

## MEASURE DESCRIPTIONS

| GOAL  | MEASURE  | DESCRIPTION  | SOURCE      |
|---|--|--|-------------|
| Incorporate payment reform into the procurement process                           | % of GIC members covered in IRBOs  | This measure tracks the percent of GIC non-Medicare Massachusetts covered lives in an Integrated Risk-Bearing Organization (IRBO). IRBOs are characterized by better integrated care delivery and alternative payment models not solely based on fee-for-service reimbursements. | Health plan |
|   | % of claims paid under alterative payment methods (not fee-for-service)                        | This measure tracks the percent of claims paid under alternative payment methods in which health plans pay providers in ways that target quality, not quantity of care. Examples include shared risk and shared savings arrangements, bundled payments and global payments.      | Health plan |
|   | # of enrollees who choose providers with highest quality cost efficiency and/or quality scores | This measure tracks the number of members who chose providers with the highest cost-efficiency and quality scores as part of the Clinical Performance Improvement (CPI) Initiative. These members have lower out-of-pocket costs.  | Health plan |
| Empower consumers to make informed decisions when selecting health care providers | # of physicians scored through CPII  | This measure tracks the number of physicians in MA scored through the Clinical Performance Improvement (CPI) Initiative. Enough data has to be available for physicians to be scored accurately and placed into one of three tiers.  | Health plan |
|   | # of specialties tiered through CPII   | This measure tracks the number of physician specialties (e.g., cardiologists) tiered through the Clinical Performance Improvement (CPI) Initiative.  | GIC         |
|   | % of GIC members enrolled in limited network products  | This measure tracks the percent of non-Medicare GIC members in limited network plans. These plans have the same benefits as larger plans, but  | GIC         |

| GOAL                                       | MEASURE   | DESCRIPTION  | SOURCE      |
|--|---|--|-------------|
|  |   | have fewer providers; their premiums are approximately 20% lower.  |             |
|  | # of practices seeking medical home status through accreditation                              | This measure tracks the number of practices seeking medical home status through accreditation. Accredited Medical homes offer a care model that is patient-centered, team-based, coordinated, accessible and follow certain standards for IT infrastructure.   | Health plan |
|  | # number of GIC enrollees in medical homes  | This measure tracks the number of GIC enrollees in medical homes; the GIC's goal is to increase the number of enrollees to 10,000.   | GIC         |
| Expand WellMASS employee wellness programs | % of eligible GIC enrollees participating in WellMASS   | This measure tracks the percent of eligible enrollees participating in WellMASS, the state's wellness pilot program launched in Mar '12. Active state employees working in the executive branch, constitutional offices and the legislature, and early state retirees ages 55 to 64 and their spouses who are enrolled in a Group Insurance Comm. Health Plan are eligible to participate. | GIC         |
|  | # of participants at wellness events  | This measure tracks the number of people attending on-site wellness events. The GIC will continually work to increase the number of people participating in the wellness program.  | GIC         |
|  | % of participants who reduced their number of risk factors based on Health Assessment results | This measure tracks the percent of participants who reduced their high-risk factors, according to the results of the annual Health Assessment, a self-assessment tool of health status.  | StayWell    |
| Improve customer service for enrollees     | # of hits on GIC's website  | This measure tracks the number of page hits on <a href="http://www.mass.gov/anf/employee-insurance-and-retirement-benefits/oversight-agencies/gic/">http://www.mass.gov/anf/employee-insurance-and-retirement-benefits/oversight-agencies/gic/</a> .   | GIC         |

| GOAL   | MEASURE  | DESCRIPTION  | SOURCE                                      |
|--|--|--|---|
|  | % of survey respondents reporting a positive customer service experience                         | This measure tracks the percent of customer survey respondents reporting a positive experience. GIC plans to conduct its satisfaction survey in FY14 and will report future data collected.  | Survey<br>Monkey or<br>other survey<br>tool |
|  | # of complaints  | This measure tracks the number of written customer complaints by plan and type to determine whether there are trending issues.   | GIC   |
|  | Average time to respond to a complaint   | This measure tracks the average time it takes to respond to customer complaints. GIC aims to resolve all complaints within 30 days.  | GIC   |
|  | % of new contractors GIC meets with (within 30 days of awarding contract) to review expectations | This measure tracks the percent t of new contractors GIC meets with, whether directly with GIC staff or via GIC consultants, within 30 days of contract award.   | GIC   |
| Improve relationship management with health  | # of health plans met with twice a year  | This measure tracks the number of health plans GIC meets with twice a year.  | GIC   |
| plans and providers  | # of yearly meetings between GIC and provider organizations                                      | The measure tracks the number of yearly meetings between GIC and provider organizations such as the MA Medical Society and MA Hospital Association, or with providers directly.  | GIC   |
| Enhance existing technology to improve efficiency, streamline internal processes and enhance the customer experience | % of survey respondents reporting a positive experience with new technology systems              | This measure tracks the percent of survey respondents including health plans, GIC coordinators and internal users, who reported a positive experience with GIC's new technology systems. GIC did not have the resources to complete this survey in FY13, but plans to pursue its roll-out in the future. | GIC   |

| GOAL   | MEASURE   | DESCRIPTION   | SOURCE      |
|--|---|---|-------------|
| Place emphasis in procurement on fiscal constraint | # of plans that adhere to financial goals as enumerated in procurement docs | This measure tracks the number of health plans that have followed the spending targets of no more than 2% increases in FY14 and FY15, flat in FY16 and -2% in FY17 and FY18, as laid out in the health plan procurement GICPND1301. | Health plan |
